CARGO JACKING BARS
Cargo bars offer strong support for your cargo. Cargo bars expand to fit tightly against the sides of a container or truck walls and lock in place without excessive pressure. Cargo bars feature 2” x 4” bolt-on padded feet for no-slip traction once they are extended to appropriate pressure. These adjustable round steel tube load bars are made of high-quality steel and adjust from 2175mm to 2910mm.
PART No: RT-JACKBAR
JACKING BAR - WWL 600kg

INDUSTRIAL ABSORBENTS
SUKERUP ABSORBENT
• No toxins or chemical residues
• Free of harmful dust
• Absorbs many times its weight
• Meets EPA requirements
• Natural inert material
• Bio-degradable
• Suitable for hydrocarbon and aqueous spills
• Made from renewable resources

Sukerup Organic Absorbent is 100% organic and contains no chemical residues. It is made from ground coconut husk milled to the right particle size to allow maximum absorption.

The reason it is such an effective absorbent is each particle is made up tiny capillaries that together work as thousands of micro sponges. Sukerup Organic is an annually renewable resource that is safe for the workplace and the environment. It absorbs much quicker and more efficiently than clay based absorbents and does not become slippery. This means a quicker response and cleanup, less absorbent used and cheaper disposal costs.

DUNNAGE BAGS

CC-DBAGFORKLIFT
FORKLIFT COMPRESSOR
Introducing the newest dunnage air bag inflation technology, the Forklift Inflator. It is easily installed on any forklift and is powered by the forklift battery. Once installed, simply flip the switch to fill dunnage air bags anywhere inside a trailer or container.

- Can be used on Lightweight airbags
- Decreases load time
- No air lines or air carts needed
- No recharging or downtime
- No dragging long air lines or air carts
- Runs off forklift battery power

SPECIFICATIONS:
Max Pressure 1.5 PSI
Hose Length- 15 ft
Unit Weight- 7.5 lbs

Unparalleled dunnage airbag inflation speed and an innovative safety feature that significantly reduces inflation time and labor costs. Our inflator fills dunnage air bags faster than the industry standard.

The SuperFlow™ inflator offers a unique feature that prevents over-inflation. Once an airbag is has reached its optimal pressure, air automatically diverts through the back of the inflator, indicating to the user, that the airbag has reached its optimal PSI.

The industrial grade plastic body is built to withstand the wear and tear of a loading environment.

CARGO CARE
1. Exclusion of other Terms and Conditions: The following terms and conditions shall apply to the sale of all products by ANCRA Australia Pty. Ltd. ("the Company") to the exclusion of any and all terms and conditions in any documents submitted to the Company by the Customer whether prior to or following the Customer’s receipt of these terms and conditions.

2. Basis of Acceptance of Quotation: All quotations verbal or written are based on information provided by the Customer (or by third parties on its behalf). Any extra cost or expense arising from incorrect information shall be paid by the Customer.

3. Prices: Any quotation submitted or any price set out in any price list is based upon the cost of labour and materials current at the date of the price list or quotation. The Company may at its discretion increase any price at any time to reflect changes in the cost of labour and materials and manufacturing overheads.

4. Terms of Payment: Unless the Company in its discretion agrees to accept payment for products on other terms, the Customer shall pay for all products delivered by the Company within 30 days from the last day of the month in which the invoice is dated.

5. Literature and Suitability of Products: Advertising and other literature provided by the Company contains general information only and no such information forms part of any contract between the Company and the Customer. The Customer shall be responsible for determining the fitness of the Company’s products for the purpose for which they are intended for use by the Customer, and acknowledges that the Company is not aware of that purpose and that the Customer has not relied on the Company’s advice.

6. Claims: All products sold will be deemed to be of required quality and type unless a claim specifying particular deficiencies or incorrect type is received by the Company within 7 days after receipt of products by the Customer.

7. Returns and Cancellations: Orders can only be cancelled or products returned with the prior written agreement of the Company. Returns due to client error will incur a restocking charge of 15% of the invoice price. Products accepted for return must be despatched at the Customer’s cost.

8. Delivery: Cost of delivery from our store to the Customer’s nominated point will be at the Customer’s cost, unless prior arrangement to the contrary. Any delivery made by us in the Melbourne area will incur a Delivery Fee in addition to the cost of the goods.
